

L901 Industrial Colour Label Printer

Powerful in both roll-to-roll and inline applications

The L901 combines industrial design, exceptional image quality, and high production speeds with a new ability to service and maintain the printhead “on-the-fly.” This makes the L901 perfect for long roll-to-roll print jobs or inline integration with label finishers, applicators, dispensers, and more.

Producing vibrant full-colour prints in high resolution, the L901's new optimised ink formula delivers improved UV and water resistance, deeper blacks, and a longer printhead life. Large print volumes are now more economical, with five high-capacity 250ml CMYKK ink cartridges delivering an ultra-low cost per label.

Key Features

- ✓ Designed for easy integration
- ✓ On-the-fly printhead servicing
- ✓ Lower cost per print
- ✓ High speed & resolution

Optimised for these inline uses:

Presses /Finishers

Roll to Roll

Print & Apply

New Optimised CMYKK Ink Formula

Increased UV and water resistance with deeper blacks, all at a new lower cost of ownership

Touchscreen Operation

Easily store files, run and pause jobs, or perform maintenance tasks through a user-friendly interface

Industrial Build Quality

Designed for all-day operation—either roll-to-roll or inline—in a production environment

Professional Print Resolution
