

Afinia L-801 Label Printer

The L-801 Label Printer from Afinia is the Industry's leading, colour label printer. The key to the L-801 is the unique print engine designed by Memjet.

Using Memjet technology means the L-801 printer has a static print head which covers the entire width of the labels it's printing. This gives print speeds of up to 12 inches or 304.88mm per second!

With print resolution of 1600 x 1600dpi the L-801 is unbeatable.

The L-801 Label Printer was designed to allow ultra fast label printing at the highest quality for low costs.

Other key features include an integrated un-winder, Easy access doors for fast, simple label and Ink replacement as well as 1.25 litres of Ink capacity to support large runs.
